International Journal of Fracture

CONTENTS OF VOLUME 52 (1991)

Vol. 52, No. 1, 1 November 1991

A thermodynamic approach to the influence of plastic deformation on crack instability	F. GUIU and R.N. STEVENS	1
Limit load solution and loading behavior of $C(T)$ fracture specimen	J.M. HU and P. ALBRECHT	19
Application of a moving variable order singular element to dynamic fracture mechanics	J.C. THESKEN and P. GUDMUNDSON	47
Analysis of interleaved end-notched flexure specimen for measuring mode II fracture toughness	L.A. CARLSSON and A. AKSOY	67

Vol. 52, No. 2, 15 November 1991

A rectangular crack in an infinite solid, a semi-infinite solid and a finite-thickness plate subjected to tension	M. ISIDA, T. YOSHIDA and H. NOGUCHI	79
Optical mapping of crack tip deformations using the methods of transmission and reflection coherent gradient sensing: a study of crack tip K-dominance	H.V. TIPPUR, S. KRISHNASWAMY and A.J. ROSAKIS	91
Aspects of cohesive zone models and crack growth in rate-dependent materials	L.O. FAGER, J.L. BASSANI, C.Y. HUI and D.B. XU	119
Finite element modeling of crack closure during simulated fatigue threshold testing	R.C. McCLUNG	145

Vol. 52, No. 3, 1 December 1991

Crack growth by grain boundary cavitation in the transient and extensive creep regimes	T.C. WANG, C.F. SHIH and A. NEEDLEMAN	159
J dominance in mixed-mode loading	Z.Z. DU, C. BETEGÓN and J.W. HANCOCK	191
A microplasticity analysis of shear band cracks in rolled 2024 aluminium alloy	W.B. LEE and K.C. CHAN	207
Mixed-mode fracture mechanics of anisotropic plates by means of the T-criterion	P.S. THEOCARIS and T.P. PHILIPPIDIS	223

Vol. 52, No. 4, 15 December 1991

Publisher's notice: 1992 publication programme		iii
Collinear cracks in anisotropic bodies	C. HWU	239
On the effect of the release of residual stresses due to near-tip microcracking	S.X. GONG and S.A. MEGUID	257
The effect of crack front curvature and side-grooving on three point bend specimen fracture toughness measurements	B.A. CROUCH	275
Small-scale crack blunting at a bimaterial interface with Coulomb friction	Y.C. WANG, C.Y. HUI, D. LAGOUDAS and J. PAPADOPOULOS	293
The dynamic near crack-line fields for mode II crack growth in an elastic perfectly-plastic solid	W. ZHU and K. LI	307

International Journal of Fracture

CONTENTS OF VOLUME 52 (1991)

Vol. 52, No. 1, 1 November 1991

Meetings calendar		R2
Delta-K correlation of fatigue crack growth rates under general monotonic yielding	S.A. SEETHARAM and P.K. DASH	R3
An analytical solution of stress and displacement for two perfectly bonded infinite strips	ZHAO BANGJI, LANG FUYUAN and WEI QINGTONG	R9

Vol. 52, No. 2, 15 November 1991

Meetings calendar		R16
Stress intensity factors for finite plate by boundary collocation	V.G. UKADGAONKER and B. MURALI	R17
Cleavage fracture origins under static and dynamic loading	JUNSHAN LIN, WENBIN YAN and MINGJING TU	R25
Energy changes associated with active zone propagation	A. STOJIMIROVIC	R31

Vol. 52, No. 3, 1 December 1991

Meetings calendar		R36
Micro-crack toughening in particulate composites	A. MISRA and A.A. SUKERE	R37
Failure of da/dN-DK correlation under small scale yielding loading in negative stress ratio tests	S.A. SEETHARAM and P.K. DASH	R45
Effect of stress ratio on fatigue crack growth in a titanium aluminide alloy	B.K. PARIDA and T. NICHOLAS	R51

Vol. 52, No. 4, 15 December 1991

Meetings calendar		R56
Effect of cyclic waveforms with superimposed high frequency flutter on the corrosion fatigue behaviour of a submarine hull steel	M.Z. SHAH KHAN and I.A. BURCH	R57
Effect of interface contact area on fracture toughness of composites	K.V. RAVEENDRAN, A.P. VERMA and C.V.S.K. RAO	R61

AUTHOR INDEX, VOL. 52 (1991)
